

# SAFARI DOCTORS

Making the Journey  
for Change

## LIFE IS A JOURNEY

Each month, Safari Doctors sets sail in a dhow loaded with medicines and a small, dedicated team, to provide healthcare for the most marginalized communities in Lamu

Every month, we treat up to **800** patients across 8 remote villages. Child immunizations are up at least **40%**, skin conditions are down **30%** and the number of expectant mothers attending antenatal appointments has doubled!

#JoinTheJourney for change and support our monthly sail.
